

THE ALLOCATOR

SIMPLIFYING INTER-COMPANY PAYABLES AND GENERAL LEDGER ALLOCATIONS

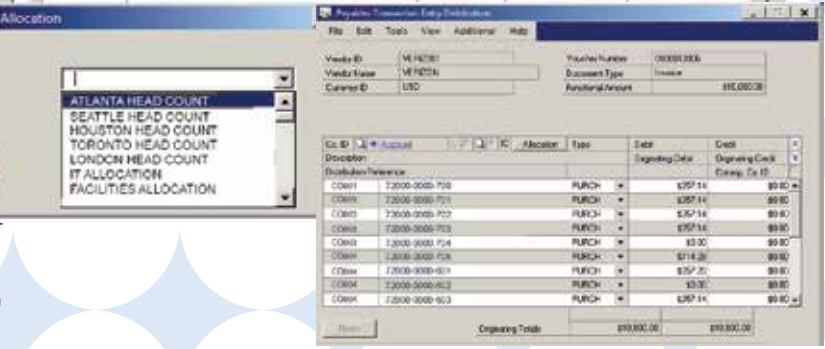

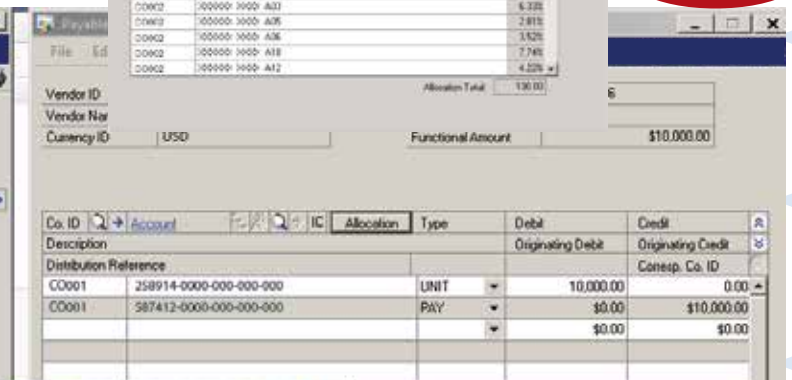

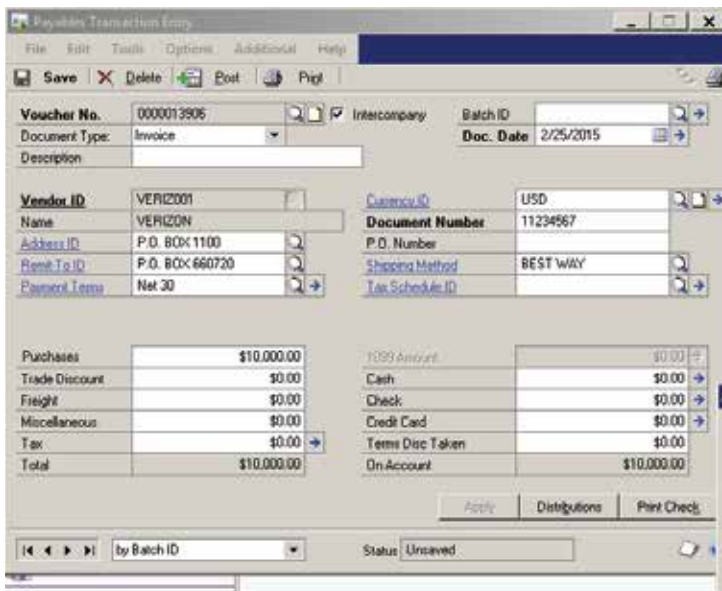

At Reporting-Central, our solutions are designed to save you time, while ensuring Data Integrity in Dynamics GP. The Allocator **reduces the time customers will spend processing allocations** for payables distributions and journal entries across multiple companies, locations, or departments.

With The Allocator, Dynamics GP customers can:

- Allocate Payables Distributions across multiple companies, locations and departments
- Allocate Journal Entries across multiple companies, locations and departments
- Reduce unintended allocation related data entry errors
- Easily manage complex tiered allocations across multiple companies and within a single company database
- Easily set-up, maintain and apply Fixed or Variable allocations across multiple companies
- Automatically calculate multi/inter-company allocations and review or edit allocations before final posting to the system
- Even if you operate in a single company and have detailed tiered allocations across multiple departments, The Allocator can help.

Easily set up

Allocate Payables and Journal Entries
